

PAGES OF PURPLE

Youth-Led Epilepsy Awareness Project

So Kids with Epilepsy Feel Less Alone

Project Highlights

We partner with schools, libraries, and pediatric practices in the **York County** area to get kid-friendly epilepsy books and resources into places children already are.

For Adults Who Support Kids

Parents, caregivers, school staff, and healthcare providers can use this flyer to connect kids and families with Pages of Purple and EAWCP's epilepsy education resources, or to explore hosting a small educational event in your school or practice.

Our Goal

To raise at least \$4,000 to donate the book "Room For Friends" to York County libraries, elementary schools, and pediatric practices so kids with epilepsy feel more normal and less ashamed. Extra books are donated to kids who are newly diagnosed.
